CRIPPLES WILL CHALLENGE TWILIGHT LEAGUE WINNERS

Members of "Moonshiners" Lack a Few Arms and Legs—But What's That to Real Enthusiasts?

Enter the Moonshine League. When the championship in the Twilight Baseball League has been decided, says County Clerk Fred Smith, the winners will be challenged by a fast aggregation which will attempt to take away their laurels. The challengers are missing a few arms and legs and have other minor handicaps, but proclaim their faith in Moonshine as opposed to Twilight. One provision of the challenge, however, is that the game be umpired by Roy Johnson, blind piano tuner.

The line-up of the Moonshiners is as follows:

Jim Murray, pitcher; Jim Braniger, catcher; Jack Gerchell, first base; E. L. Padgett, short stop; Harve Bainum, second base; Red Barrock, third base; Bill Todd, left field; Joe Alexander, right field; Peggy Conklin, left field.

RAILROAD RATES MAY BE REDUCED

MISSOURI LINES ORDERED TO SHOW COSTS OF OPERATION.

3.6 CENT FARE TOO HIGH

Present Freight Rates Restrict Movement of Live Stock and Other Farm Products.

Jefferson City, July 20.—Missouri railroads are called upon by the State Public Service Commission to consider a reduction in rates, both passenger and freight. The order is effective July 26.

The order recites that by order of the commission issued August 26, 1920, as amended by the order dated February 7, 1921, the commission authorized the trunk line railroads of the state to collect certain increased rates on freight, and an increase of 20 per cent on passenger rates, with excess baggage charges on shipments of milk and cream.

The commission further says that changes have been made in the operation of railroads resulting in a material decrease in the cost of their operation. It is said that complaints have been filed alleging that the present rates on live stock and farm products tend to restrict the movement of such commodities.

It is further a matter of complaint, the order reads, that the present passenger fare, 3.6 cents per mile, is economically too high, unreasonable within itself, and prevents the full use of the railroad facilities.

The order requires each of the railroads in the state to file on or before August 5, 1921, a detailed statement of its operations for the first five months of the calendar year 1920, as compared with the corresponding period in 1921.

Such statements must show the tonnage of commodities moved intra-state in Missouri, the number of passengers handled, and the revenue from selected commodities and passenger business.

The statement must show also the cost of operation, including maintenance, expense per freight train mile, per passenger train mile and such other information as is available.

An estimate is asked also of the operating cost in July, 1920, as compared with that of July, 1921, showing the approximate saving in July, 1921, in operating cost based on reductions of wages and changed working conditions.

The commission acted on its own initiative in calling for statements to ascertain what effect the reduced cost of operation has on the finances of the roads, and if it will justify a decrease in the rates on intra-state freight and passenger business.

CULLING OF FLOCKS MEANS MORE EGGS

COUNTY FARM AGENT OFFERS SERVICES FREE

DATA SHOWS BENEFITS

Number of Hens Reduced 40 Per Cent by Selling Non-Producers But More Eggs Were Laid

How farmers may sell half their hens and still get as many eggs is being demonstrated this week by R. A. Kinnaird, county farm agent. He is using data collected last year to convince the owners of flocks that periodical culling will increase their egg yields and result in the saving of much feed.

The poultry culling season will soon be here. Farm Bureau members are entitled to have their flocks culled free of charge by the county agent, but they must make the necessary arrangements soon. There will probably be so many calls for this work that it will be necessary to arrange a schedule so that all the flocks in one community can be culled on the same day and avoid unnecessary traveling.

Those who have their flocks culled are asked to keep a record of the number of eggs laid by the flock during the week before and the week after culling, so that definite record may be kept to show the value of the work.

"Last August and September 126 flocks in this county were culled," the county agent said. "There were over 13,000 hens in these flocks; 40 per cent were not laying any eggs at that time of the year and were culled out and sent to market. Reports on the results of culling were secured from 65 flocks; and according to statements of the owners, the flocks had been laying a total of 1894 eggs per day during the week before they were culled. During the week after the flocks were culled the hens kept on the place alld an average of 1933 eggs per day. So you can see there was no loss in egg production as a result of taking out the 40 per cent of the hens which were unproductive."

PRINTERS WALLOP MUSIC MAKERS 4-3

EXTRA INNING IS NEEDED TO BREAK 3-3 TIE

MORE GAMES SCHEDULED

Next Contest Will Be Between Musicians and Students—Others Looking for Easy Opponents.

The Printers are still supreme in the Twilight baseball league today, although an extra inning was required for them to turn back the Musicians on the College diamond yesterday afternoon. The final score was 4-3.

When the Underwood punchers took the field for the last half of what was scheduled to be closing inning, they rested apparently secure in a two-run lead. The first two Musicians were easy victims, but with the pleas of their companions urging him on, Director C. D. Kutschinski allowed one of Parson's fast ones to glance off his ribs. The next batter followed suit, and both subsequently scored, ticing the score at 3-3.

The Printers again took the lead in their half of the extra inning by adopting the same any-way-to-get-on tactics. Shelton was the hero who took one of Yehle's slants on his shoulder. He went all the way round, while the Musician's twirler was striking out the next three men, scoring on a passed ball.

The Musicains again made a gallant effort with two men gone in their half of the inning. Buhler was safe at first when his easy bounder down the third base line refused to lodge in Mapel's glove. He stole second and third, but was left stranded when Yehle whiffed for the last out of the game.

The Printers looked like easy winners in the early innings when they scored three runs, while Parsons was turning back the Musicians without hits. Shanks and Bovard who secured the only two real hits off the delivery of the printer twirler, were the hitting heroes for the Kutschinski forces, while the honors were evenly distributed among the newspaper makers.

A crowd of almost two hundred spectators watched the game, cheering both sides impartially.

The lineups were as follows:

Printer: Seleemen, c; Parsons, p; Cummings, 1b; VanCleve, 2b; Shelton, ss; Mapel, 3b; Gile, rf; Hornbuckle, cf; Younger, lf.

Musicians: Buhler, c; Yehle, p; Butherus, 1b; Shanks, 2b; Price, ss; Bovard, 3b; Vogt, rf; Cannon, cf; Umpire: Fred Newlon.

The next game will be played Friday night, when the Musicians will tackle a team of students from the State Teachers' College. The Printers will play the Cigar Makers next Monday.

The Butchers have now organized a team and are looking for challenges. The Townsend aggregation has worked out several times, and the Order of De Molay will organize a team this afternoon. The men employed on the construction work at the high school have been ready to play for several days.

U. S. WANTS JAPAN TO ENTER PARLEY

WILL MAKE CONCESSIONS IF IT IS NECESSARY.

PRESIDENT NOT TO SIT

Commission to be Named Later Will Include Members of Senate, White House Announces.

Washington, July 20.—Although the administration is expectant that Japan will enter President Harding's disarmament conference unconditionally, it was learned today that the government is willing to make slight concessions if necessary to pave the way for Japan's acceptance.

Although it has been indicated that the government may agree to concessions, it was also learned that the administrations has made it unmistakably plain to Japan that it feels the conference has greater chances of success if the nations enter the party without any reservations.

Washington, July 20.—President Harding will not sit at the disarmament conference in person, it is stated here in well informed diplomatic circles. The President will name a mission or delegation to conduct the American side of the negotiations, leaving himself free to step in should the conference reach a critical point and need his influence to bridge over a dangerous chasm.

It was made known at the White House today that the Senate would be represented on the commission. Whether both sides of the political aisle will be on the delegation remains to be disclosed.

Some weeks will elapse, as explained, before the definite details of the conference can be determind, especially as to personnel of the American commission, but the administration's general purpose was made clear today along the lines indicated. The White House is getting suggestions from all sides as to the makeup of the delegation. Samuel Gompers yesterday urged that some labor representative be included. Women's organizations have urged emphatically that their sex be given a place on the American commission. President Harding is not committed in either instance, but the suggestion of a woman delegate is getting deep consideration.

With the President eliminating him self from the delegation, it goes without saying that Charles E. Hughes, secretary of state, will head the American body. It is difficult to see how Senator Henry Cabot Lodge, chairman of the foreign relations committee and senate floor leader, can be passed over when the senate is dipped into. But beyond that the personnel gets to guesses, with Hoover, Root and Underwood favorites in predictions.

LARGEST CIRCULATION IN NODAWAY COUNTY

Fifty Years Ago

(Taken from the Nodaway Democrat of Wednesday, July 19).

We were again visited by a storm on last Monday night, that took the roof off of the school house, blew down a number of trees, and played the "devil's dream" with window shutters, etc. for about fifteen minutes.

The survey of the Quincy, Missouri and Pacific Railroad are now engaged in making a survey through Sullivan county, coming this way.

The Farmers' Mercantile Association at Barnard, is likely to prove a success, as over one-half of the capital is already subscribed. Captain R. G. Hubbard, John McFarland, James G. McCandless, A. J. Dearing, J. U. McKenzie, Thomas Groves and other prominent citizens of Barnard and vicinity have taken stock. The object of the association is for the purpose of buying goods with the capital stock, putting a competent man in charge of them, and selling them at a lower profit than merchants usually sell their goods.

I. V. McMillan, Esq., was taken suddenly ill on last Sunday evening with congestion of the brain or sun stroke. He is slowly improving and we hope to see him on the streets in a few days.

We have been requested by several parties to announce that there will be a meeting at the court house on next Saturday at 2 o'clock for the purpose of taking the initiatory steps to the organization of a County Fair.

The price of hogs seems to be advancing a little. We have heard of 2¾ cents being offered and declined in the past few days.

On Sunday night, July 9, the house of Mr. James Broaderick on the Platte river near Guilford, was struck by lightning, which came down the stove pipe, and the house and contents were badly injured. Dishes were broken, stove shattered and a flatiron and parts of the stove melted and the clothing on the beds occupied by the family set on fire. Strange to say, the inmates of the house were uninjured.

On Monday the last two townships on the proposed line of the Hopkins and Creston railroad voted on the subscription, but we have not learned the result. All the other townships on the line have carried the subscriptions voted on and the last two will hardly fail now. The work of locating the road will commence at once, on the Hopkins end and the entire line will be located soon. Under the contract with the townships, the road is to be completed by January 1, 1872.

BILL PROPOSES INCREASE IN MOTOR TRUCK LICENSES

Basis of Fees to be on Tonnage—Other Changes are Voted Down in the House.

Jefferson City, July 20.—The house late yesterday made several amendments to the Bestor bill to regulate motor cars. The bill increasing the license fees for motor trucks is sponsored by the automobile clubs of the state. The vote on engrossment of the bill will not be taken until tomorrow.

The Bestor bill does not change the license fees on pleasure cars, but makes a small increase on trucks. The senate bill makes a small increase on both. The purpose is to provide a maintenance fund for the state road system. Both bills fix the license tax on trucks by tonnage instead of by horsepower, as at present.

Amendments made to the house bill today reduce the weight of motor trucks that may use the state roads from 28,000 to 20,000 pounds.

The salary of commissioner of motor vehicles, to be appointed by the secretary of state, is also decreased from $3,500 to $2,500, and the salaries of the inspectors are fixed at $1,800 and expenses.

All trucks of more than eight tons must pay $10 for each additional ton, instead of $50 for each additional ton, as provided in the bill.

An effort was made to increase the license fees of all motor cars over 12-horsepower to 50 cents for each horsepower. When it was shown the amendment would increase the license fee for Fords from $6 to $10, it was voted down.

An amendment to require only one license tag instead of two, as at present, met the same fate. The house also refused to reduce the license fee for motorcycles from $4 to $2.

THE HOUSEWIFE OF 1921.

Now that Woman's Suffrage is a reality the American woman must henceforth be considered not merely as a housekeeper and home maker, but as a voter—a citizen and a force in this busy work-a-day world. With added responsibilities her health should never be neglected, and when beset with ailments peculiar to her sex she owes it to herself to first give that grand old medicine, Lydia E. Pinkham's Vegetable Compound, a trial, as for over forty years it has been the standby of American women in restoring them to health and strength.—Adv.

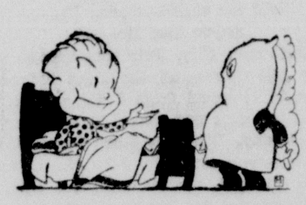
This ghost was a 1921 model



LAST MONTH, on a bet.
WITH THE boys up home.
I SPENT a night.
ALONE IN the old.
HAUNTED HOUSE.
AND WHEN I heard.
MOANS AND groans.
I SAID "The wind."
AND TRIED to sleep.
I HEARD rappings.
AND SAID "Rats."
AND ROLLED over.
THEN I heard steps.
AND IN the light.
OF A dying moon.
A WHITE spook rose.
I WASN'T scared—much.
BUT DIDN'T feel like.
STARTING ANYTHING.
BUT THEN I caught.
JUST A faint whiff.
OF A familiar.
AND DELICIOUS smell.
WHICH TIPPED me off.
SO I gave the ghost.
THE HORSE laugh.
AND SAID "Ed.
YOU FAT guys.
MAKE BUM ghosts.
BUT BEFORE you fade.
LEAVE WITH me one.
OF YOUR cigarettes.
THEY SATISFY."

THAT spicy, delicious aroma of fine tobaccos, both Turkish and Domestic, makes you almost hungry for the "satisfy-smoke." And there isn't a ghost of a chance you'll ever find its equal anywhere—for the Chesterfield blend is an *exclusive* blend. It can't be copied.

THE U. S. USCO TREAD

Here is the U. S. Usco Tread, with a long-established standard of service among motorists who have an eye to value, as well as to price. While selling for less than the other tires in the U. S. Fabric line, the Usco has earned a reputation for quality and dependable economy which is not exceeded by any tire in its class.

The standard tire likes nothing better than to prove its service

PEOPLE used to be secretly envious of the young fellow who came tearing up the street and stopped his car with a jerk.

Now they are inclined to criticise such abuse of tires. A mark of the growing *consciousness about tires*—their service, their work, their value.

This same respect for a good tire is the reason why the four-square tire dealer has passed up odds and ends, "job lots", "seconds", "cut prices"—and come out squarely with the *standard quality service* of U. S. Tires.

He is getting a bigger, and also better, tire business than he ever had before.

He is dealing now with *his own kind* of people. The substantial citizen. The man who knows that you can't get something for nothing. The *steady customer*—not the bargain hunter.

* * *

To the man who has not yet learned the *standard tire service* he is entitled to we say—

Go to the dealer in U. S. Tires and make him show you.

Here is a man in close touch with one of the 92 U.S. Factory Branches—a constant supply of fresh, live U. S. Tires.

The U. S. Tire you buy is a tire built for *current demands*. No overproduction. No piling up of stock. No loss of mileage by hanging around on the dealer's racks.

Every way you look at it, a *par quality tire at a net price*.
